ART CITY 23 OCT - 5 NOV 2020

OCTOBER 06, 2020

ArtCity is an entirely new concept where guests can visit and interact with a virtual city inhabited by international art galleries and dealerships. Rather than the typical online viewing room, Art City uses cutting edge technology whereby the experience is akin to a real life gallery or fair booth.

With the ongoing challenges affecting international travel and the cancellation of traditional art fairs, this purpose-made online platform is expected to have a major impact among art collectors, investors and enthusiasts.

The first edition will be open to the public from **23rd-28th October 2020**. 22nd October will be reserved for special guests and can be accessed using our preview code below. All ArtCity guests will be able to log in to the platform two weeks before the event and also register for panel discussions organised by Deloitte.
