

FAB PARIS, 22-27 NOVEMBER 2024

SEPTEMBER 25, 2024

FINE ARTS LA BIENNALE

We are delighted to announce our participation for the first time in FAB Paris this coming November.

Our presentation will include a curated selection of original artworks by celebrated Impressionist and Modern artists such as Pissarro, Renoir, Picasso, and Contemporary masters, notably Kusama and Hockney.

A particular highlight of the stand is a stunning oil by Camille Pissarro titled *Paysannes assises causant*. A vibrant and assured example of Pissarro's interest in light, colour and the human figure, the work was painted in the 1880s during one of the most celebrated periods of Pissarro's career and is one of the great Impressionist paintings.

We look forward to greeting you at our stand C32.
