UPCOMING ONLINE EXHIBITION

JULY 01, 2021

Our upcoming online-only exhibition 'Think Blue' will showcase a selection of works where blue features as the predominant colour.

Blue has carried a variety of associations throughout art history. The colour represented a powerful means of expression for artists such as Pablo Picasso, Marc Chagall, Raoul Dufy and other world-renowned painters.

This summer we are offering a rich variety of pieces, available for sale - ranging from modern to post-war and contemporary examples.

Please contact us at stern@pissarro.com to receive further information.
