This is a rare early painting by Paulemile Pissarro dating from 1931. It is interesting to note that beyond this year he rarely dated his works. The present painting is a classic example of his work with dreamy greens and beautiful reflections and one of the earliest works from his newly found home in Clecy along the river Orne in the area known as Swiss Normandy. Paulémile Pissarro discovered the area in 1931 and rented a house that eventually he purchased in 1935 in which he remained for the rest of his life.

This original oil painting by Paulémile Pissarro is available for immediate purchase.
