This work is accompanied by a certificate of authenticity signed by Jonathan Henery on behalf of the Estate of Christo V. Javacheff.

This piece contains the original fabric used in Christo and Jeanne-Claude's *Wrapped Reichstag* – a project which saw the couple transforming the iconic Reichstag building. After a struggle spanning decades, the project was finally completed in 1995 and is today considered one of their most significant installations.

As well as writing and photographs detailing plans for the project, the work is a beautifully realised pastel with rich greens and blues.
